Catching up about seafaring Netherlands

Annet Koster and Louis Stolper spoke today in The Hague with Member of Parliament Habtamu de Hoop of GroenLinks-PvdA. De Hoop is the spokesperson within his faction for all maritime topics and is therefore involved in many debates relevant to the maritime industry. Last month, he submitted two maritime-related motions on fuel quality and discharges.

In this conversation, we were able to catch up on all the topics that are important to Dutch shipowners, from sustainability to the labor market for seafarers and sailing under the Dutch flag.

We thank De Hoop for his time and the photo!

The two maritime-related motions

Formule Berekenen CII

$$CII = \frac{[\text{Jaarlijks brandstofverbruik}] \times [\text{CO2 emissiefactor}]}{\text{TransportWork} : [\text{Gevaren afstand}] \times [\text{Capaciteit}]}$$

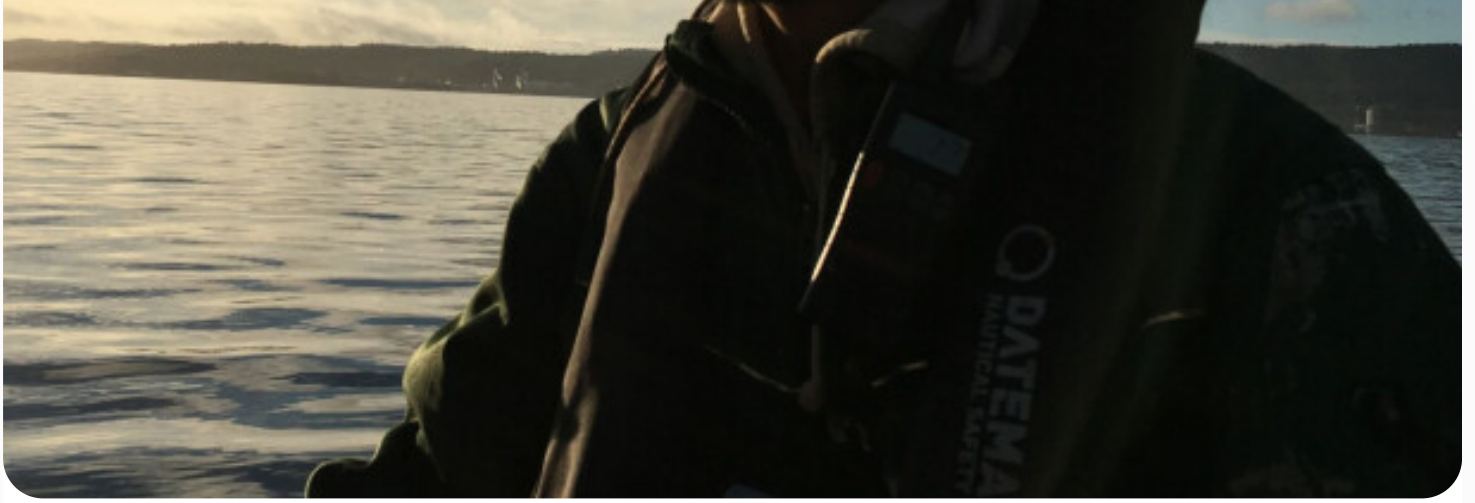

Formula Behind the CII Label Doesn't Match!

I'm not calling for all ships to get an A label, but the formula behind the CII needs to be revised to give a more realistic picture of reality. Short-sea shipping cannot be...
